

YATES DYNAMIC LIFTER

WHICH YATES DYNAMIC LIFTER IS RIGHT FOR ME?

ORGANIC PLANT FOOD

BENEFITS/FEATURES:

Slowly releases a wide range of nutrients – **Blood & Bone**, fishmeal and seaweed enrich the soil and improve plant growth. Easy to apply.

USE:

Great for everything in the garden, except natives.

WHEN:

Apply every 6 weeks while plants are actively growing to boost health and growth.

ORGANIC LAWN FOOD

BENEFITS/FEATURES:

Fine organic granules filter through grass to the soil where they promote healthy growth and beneficial soil activity. Worm friendly. Also has **Blood & Bone**, fishmeal and seaweed to add nutrients.

USE:

Can be used on all lawn types.

WHEN:

Put down in early spring and early autumn before laying new lawns.

HOSE-ON PLANT FOOD

BENEFITS/FEATURES:

Easy to apply, the hose does all your work for you and an on – off switch prevents water wastage. Rapidly absorbed into plant with all the added nutrients enriching and improving soil.

USE:

Can be used on lawns, garden beds and potted plants.

WHEN:

Apply every 2 weeks during the growing period for boosted performance.

CONCENTRATED PLANT FOOD

BENEFITS/FEATURES:

Organic based liquid fertiliser combines fast acting nutrient release with long-term nutrient action. Readily dilutes with water. Economical to use over large garden areas. Bottle has a handy clip-on measuring piece.

USE:

Treat all indoor/outdoor plants, fruit trees, bulbs, vegetables and flowering annuals.

WHEN:

Apply every 1-2 weeks during the growing season.
