to mouth if possible.

#### **GENERAL INFORMATION**

SUN-PINE is a wetting agent, activator, and penetrator combination formulation. SUN-PINE is a low viscosity oil that is a by product of the forestry industry. SUN-PINE helps penetrate the waxy cuticle on the leaf surface along with the bud and bark area of the woody brush. As a result, herbicides move through these barriers faster and more completely. SUN-PINE is compatible with most terrestrial and aquatic herbicides, insecticides, and other pesticides.

#### **USING THIS PRODUCT**

The use of **SUN-PINE** in concentrated form or in dilutions of 10% or more could cause defoliation or burn to vegetation. **SUN-PINE** is not designed for use with post-emergent herbicides in agricultural crops. ALWAYS FOLLOW THE DIRECTIONS ON THE ACTIVE PESTICIDE LABEL. Weather conditions may have an effect on the amount of **SUN-PINE** necessary. Warm, sunny days require less; cool and cloudy days may require more.

#### **USE RATES**

Application Type	Per 100 Gallons
Utility rights of way and roadside foliar	1 pint - 2 quarts
Forest site preparation	1 pint - 2 quarts
Aquatic-surface	1 pint - 2 quarts
Aquatic-submerged	1-2 gallons
Agriculture/citrus/turf	1-2 nints

STORAGE, HANDLING AND DISPOSAL: SUN-PINE is non-corrosive to metal and compatible with chemical resistant hose. Certain types of rubber or plastic may experience swelling with the long term use of this product. Store in a cool, dry place. Keep away from fire or flame. Close lid tightly after each use. When empty, triple rinse container and pour rinsate into the mixing tank before spraying. Dispose of container according to all federal, state and local regulations.
