

SUN SPREADER™

NONIONIC ORGANOSILICONE SURFACTANT

PRINCIPLE FUNCTIONING AGENTS:

Silicone and other nonionic surfactants
and humectants100%

All ingredients are exempt from tolerance requirements
under 40 CFR 180.

FIRST AID

**Call a poison control center or doctor
immediately for treatment advice.**

If Swallowed: Have person sip a glass of water if
able to swallow. Do not induce vomiting unless told to do so by a poison
control center or doctor. Do not give anything by mouth to an uncon-
scious person.

If on Skin or Clothing: Take off contaminated
clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not
breathing, call 911 or an ambulance, then give artificial respiration, prefer-
ably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently
with water for 15-20 minutes. Remove contact lenses if present, after the
first 5 minutes, then continue
rinsing eye. Have the product container with you when calling a poison
control center or doctor, or going for
treatment.

KEEP OUT OF REACH OF CHILDREN CAUTION

Harmful if swallowed. Causes moderate eye irritation.
Avoid contact with eyes, skin, or clothing. Wash
thoroughly with soap and water after handling.

SEE BACK SIDE OF CONTAINER FOR
DIRECTIONS FOR USE.

GENERAL INFORMATION

SUN-SPREADER is a, nonionic organosilicone wetting agent, that is highly
effective with postemergent and non-selective herbicides. **SUN-SPREAD-
ER's** organo-silicone chemistry allows for enhanced wetting and absorption
of herbicides into plant, leaf, and stem surfaces. **SUN-SPREADER** may be
used with most pesticides and fertilizer products as directed on this label.
Observe initial application to insure thorough coverage without excessive
runoff of the spray.

DIRECTIONS FOR USE

SUN-SPREADER when directed for use with pesticides and fertilizers, is effective
when applied on crops such as alfalfa, corn, cotton, oats, peanuts, rice, sorghum,
soybeans, sugar cane, wheat, lawns, turf, greens and tees.

<u>APPLICATION</u>	<u>PER 100 GALLONS</u>
Ground	12 to 64 ounces
Aerial	12 to 32 ounces
Aquatic	8 to 32 ounces
General Wetter/Spreader	6 to 12 ounces

For increased water penetration of hard to wet soils, and the uniform distribution
of applied moisture, follow recommended uses:

Lawns and Turf: .05% - .125% v/v concentration.

Greens and Tees: .05% - .125% v/v concentration.

NOTE: The application rates on this label are based on pesticide labels that recommend the
use of a nonionic surfactant. Rates of this product may be increased or decreased for opti-
mum results. Follow pesticide labeling for proper recommendations. Before using **SUN-
SPREADER** where a nonionic surfactant may not be recommended, the user or applicator
advisor must have experience with the combination, or must have conducted a phytotoxicity
trial to ensure safety, and jar testing to ensure compatibility.

MIXING

Prior to pesticide application, clean mixing and application equipment according to
pesticide label directions. To minimize foaming, fill spray tank 2/3 or 3/4 full of water
and begin agitation. If foaming is anticipated, the addition of an anti-foaming agent
should be added before pesticides, nutrients, or **SUN-SPREADER**. If foam is still not
properly controlled, more antifoaming agent may be added later.

Add pesticides and/or fertilizers as directed by label or
in the following sequence:

- Micronutrients and fertilizers
- Dry flowables and dispersible granules
- Flowables
- Water soluble pesticides
- Emulsifiable concentrates

Continue agitation and add **SUN-SPREADER**, when completed, reduce agitation
and allow to mix for 1 to 2 minutes. While under minimal agitation, continue filling tank
and allow to mix for 10-15 minutes prior to application. **NOTE:** For optimum results, spray
mixes containing **SUN-SPREADER** should be applied within 36 hours.

STORAGE AND DISPOSAL

Do not contaminate food or feed by storage or disposal. Do not store near heat or
open flame. Store in original container. Triple rinse container (or equivalent) and
pour rinsate into mixing tank. Then offer for recycling or reconditioning, or puncture
and dispose of in a sanitary landfill or incineration in accordance with local, state, or
federal regulations.

WARRANTY

Red River warrants that this product conforms to its chemical description and is rea-
sonably fit for the purpose stated on the label when used in accordance with direc-
tions under normal conditions of use, but neither this warranty nor any other war-
ranty of merchantability or fitness for a particular purpose, expressed or implied,
extends to the use of this product contrary to the label instruction, or any abnormal
conditions, or under conditions not reasonably foreseeable to Red River, and buyer
assumes the risk of any such use.
