KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

If Product:

Gets in eyes then:

- Hold eye open and rinse slowly and gently with water for 5 minutes
- Remove contact lenses, if present. Continue to rinse eyes for 10-15 minutes.
- · Call a poison control center or doctor for treatment advice.

Gets on skin then:

- Take off contaminated clothing.
- · Rinse skin immediately with plenty of water for 15-20 minutes.
- · Call a poison control center or doctor for treatment advice.

Is swallowed then:

Have person sip a glass of water if able to swallow.

NOTES: Have the product container or label with you when calling a poison control center or doctor or going for treatment. In the event of a medical emergency, you may also contact the National Pesticide Telecommunications Network at 1-800-858-7378.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly after handling. Keep children and pets out of the treated area until sprays have dried.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or by drift.

Read entire label before using.

ALL PLANTS IN AND AROUND THE HOME:

For control of powdery mildew make the first application after powdery mildew infection is observed. Make a full coverage spray of the growing plants using 0.75 fl. oz. to 1.5 fl. oz. E-RASE CONCENTRATE in 1.25 to 2.5 gallons of water per 1,000 square feet according to the extent of foliar growth and extent of disease pressure.

E-RASE CONCENTRATE is a contact control agent that requires thorough spray coverage to achieve control of powdery mildew. [Foliar coverage on pubescent (hairy leafed) plants will be more difficult to achieve.]

Make follow-up applications when mildew infections are again observed. As increased growth occurs, use 1.5 fl. oz. to 3.0 fl. oz. E-RASE CONCENTRATE in 2.5 to 5.0 gallons of water per 1,000 square feet, depending on the extent of growth and the extent of disease pressure.

To avoid foliar injury, do not continue to make applications if chlorotic, and/or brown leaf margins, or other injury symptoms occur.

NOTE: Measurement conversions are:

0.75 fl. oz. = 1.5 measuring tablespoons (Tbsp.)

1.5 fl. oz. = 3.0 measuring Tbsp.

3.0 fl. oz. = 6.0 measuring Tbsp. (or 1/4 cup

measure plus 2 measuring Tbsp.)

Rinse the tablespoon or other measuring device with water over the spray container after each use. This will help ensure that the correct amount of E-RASE CONCENTRATE is used. Use measuring devices only for pesticides and keep them away from food and food use areas.

Continuous agitation of the spray mixture is required to assure proper deposit of E-RASE CONCENTRATE. E-RASE CONCENTRATE can be used to control mildew with repeated application using prescribed rates and spray volume.

STORAGE AND DISPOSAL

STORAGE: Store product in original container at room temperature in a locked storage area inaccessible to children and pets. Do not store below 50°F.

DISPOSAL: Do not reuse this container. Do not rinse unless required for recycling. Place in trash. Never pour unused product down the drain or on the ground.

NOTICE:

This product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Manufacturer is not responsible for the use of this product contrary to the label instructions, or under abnormal conditions not reasonably foreseeable to the manufacturer and/or seller and the buyer assumes the risk of any such use.
